Display Screen Equipment:

Junction Theatre Academy recognises its responsibility to ensure the well-being of workers who habitually use display screen equipment for a significant part of their normal work. Volunteers/Workers are advised to ensure that they take a five-minute break from

the display screen equipment at least once an hour and are advised that, if they experience vision defects or other discomfort that they believe may be wholly or in part a consequence of their use of such equipment, they have the right to an eye-test at the Organisation's expense.

The regulations are for the protections of workers (including self-employed workers and volunteers) who habitually use display screen equipment for a significant part of their normal work.

The individual depends on the use of display screen equipment to do the job, as alternative means are not readily available for achieving the same results.

The individual has no discretion as to the use or non-use of the display screen equipment

The individual needs significant training and/or skills in the use of display screen equipment to do the job

The individual uses display screen equipment in this way daily.

Workers' Entitlement:

Eye Test

Any worker covered by the Regulations is entitled to request an eye and eyesight test which will be paid for by the employer. Workers should inform their line manager, who will provide them with the forms to take to an option of the worker's choice.

A worker may request a test if he/she:

Is already a user for a significant part of his/her work

Is about to start using display screen equipment for a significant part of his/her work

Is experiencing visual difficulties which may reasonably be related to display screen work

It is recommended by an option at the time of an eye examination that the worker should have eye tests at regular intervals

Spectacles

If, as a result, of the eye test a worker requires spectacles solely for use with display screen equipment, he/she is entitled to reimbursement of the cost of a basic pair. If the worker wishes to choose more costly spectacles (e.g. a more expensive frame), the employer is not obliged to pay the full cost of these. In this event the worker will only be reimbursed for the cost of basic spectacles.

If as a result of the tests spectacles are required for normal use, e.g. reading or distance vision, but which may also include display screen equipment use, under the Regulations the employer is not required to make reimbursement beyond the cost of the eyesight test and the report.

To check our working conditions, and ensure our safe working practices are being followed we will include Health and Safety as an agenda item at termly staff meetings, each initial production meeting and every alternate Board of Trustees meetings
